

Artikuno Referral Program

Artikuno is a start-up that acquires small e-commerce businesses on Shopify and then grows them on a portfolio level. If you know any Shopify store owners who are looking to sell their store in a fast, transparent and efficient way, you can notify us and benefit from our referral bonus.

Store Requirements:

- The Shopify store must be generating between 300K to 1.2mil EUR (or equivalent) in annual revenues (or it may exist for less than 1 year where the monthly revenues on an annualized basis are within that range).
- Minimum net profit margin of 15%.
- Revenue history for at least 6 months.
- Store owner willing to have a transition phase, where they stay involved in the operations for a couple of months post-acquisition
- Have a product in a niche that has the potential to be internationalized.

The Referral Bonus:

- The referral payout will be calculated as 1% from the final purchase price paid for a referred store.
- The payout will be made in EUR and within 30 days of the final purchase price being paid out to the store owner.
 - Example: You refer a Shopify store to us that we then agree to purchase for 120K EUR. Your referral payout will equal to 1,200 EUR, which you will receive within 30 days of the acquisition being completed.
- There is no limit to how many times the same person can refer different stores and benefit from the referral program.
- If you are interested in referring a continuous stream of Shopify stores to us, then please get in touch and we can discuss a higher referral payout for you.

To refer a store please send us an email to anton@artikunocommerce.com with an introduction to the Shopify store owner (include "Artikuno Shopify Store Referral" in the subject field).
